Swiss Foreign trade statistics

Price list as from January 2022 (incl. VAT)

1. Swiss-Impex

Swiss-Impex is the online database of the Swiss foreign trade statistics. The basic version provides access to statistics on imports and exports on a monthly basis since 1988, and includes groups of goods (tariff heading, nature of goods, broad economic categories, SITC and CPA) and countries.

Additionally, the "Expert" version includes modes of transport, customs duties and indices. It allows performing more substantial queries, and offers many additional features.
