

# Swiss Approved Exporters

31.03.2023

The Federal Office for Customs and Border Security may authorise exporters (hereafter referred to as Approved Exporter) to issue origin declarations disregarding any value limit. Such Swiss Approved Exporters are generally exempted from the obligation of signing origin declarations. Approved Exporter authorisations are applicable to all Free Trade Agreements of Switzerland/EFTA (currently except the Free Trade Agreement EFTA-GCC). The table below is updated on a regular basis (see date mentioned above). It contains the authorisation number and the exporter's name.

The company names are mentioned in the table in one language only. They may differ on origin declarations in other languages. For example: "C-Industrie AG" (German) may be given in an origin declaration as "C-Industrie SA" (French) or "C-Industry Ltd. (English).

Some of the Approved Exporters are granted several authorisations with different numbers, for example in case of independent branches .

Authorisation numbers with one or two digits are usually indicated on origin declarations preceded by zero(s). In some cases, the year of the first approval is added. For example: Authorisation number 11 may be given as 11, 011, 0011, 00011 or 11/2001, 011/2001,0011/2001 or 00011/2001.

| Authorisation | Company                                    |
|---------------|--|
| 1412          | 3A Composites Mobility AG                  |
| 8374          | 3D Systems SA                              |
| 868           | 3M (Schweiz) GmbH                          |
| 3084          | Aalberts Process Technologies AG           |
| 9135          | Aalberts Process Technologies Härkingen AG |
| 7036          | ABB Schweiz AG                             |
