

Passar roadmap (as at 23.09.2024)

Functional scope of Passar 2.0

Start of pilot phase + pre-production	Content	Goods provision
Q2 2026	Complete importation	• Importation into free circulation • incl. simplified importation • incl. interim solution for inward processing traffic • incl. implementation of AEO requirements • incl. Stadi integration • incl. Probabel (ex confirmation code) • Placement in a customs warehouse • Placement in a tax warehouse • Reduced goods declaration with subsequent supplement (probably without automatic monitoring) *
Passar 2.0 provides all the functions needed to completely replace e-dec Import.
