1 Prerequisites

The Prezios Info application is freely accessible to the public, and it is not necessary to log in to the FOCBS's electronic portal (ePortal) to use the platform.

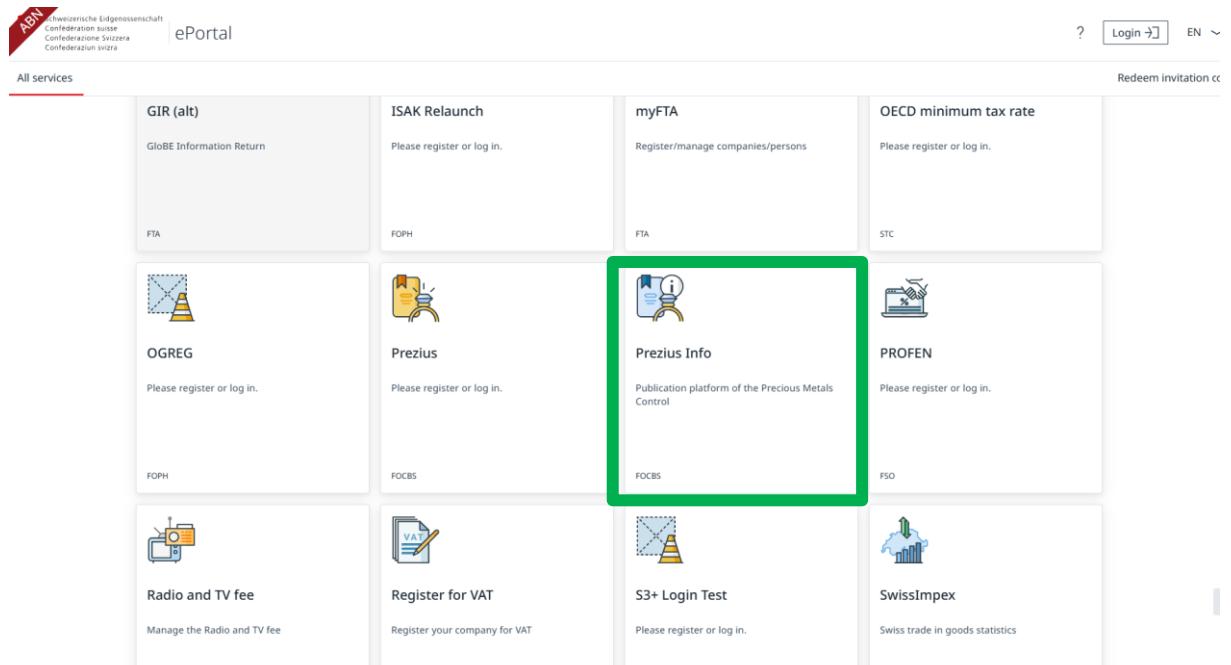

2 Access

Open the FOCBS's [ePortal](#).

The screenshot shows the FOCBS ePortal homepage. At the top, there is a navigation bar with the ABN logo, a search bar, and language selection (EN). Below the navigation bar, a large blue arrow points downwards from the top of the page towards the 'Public services' section. The 'Public services' section contains a grid of tiles for various applications, including AEOI, API Selfservice Portal, CbCR, Chartera Output, and Prezios Info. The Prezios Info tile is highlighted with a green border. The page also features a 'Welcome to ePortal' banner and a 'Login and registration' box.

Find the Prezios Info application in the list of public services and click on the tile to open it.

The screenshot shows the 'Public services' grid on the ePortal homepage. The Prezios Info application tile is highlighted with a green border. The grid contains 16 tiles representing different services, each with an icon, name, and a 'Please register or log in.' message. The services include: GIR (alt), ISAK Relaunch, myFTA, OECD minimum tax rate, OGREG, Prezios Info, PROFEN, Radio and TV fee, Register for VAT, S3+ Login Test, and SwissImpex. The Prezios Info tile is located in the second row, third column of the grid.

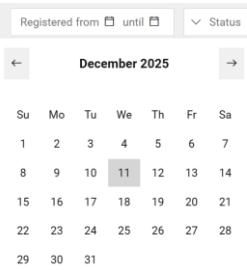

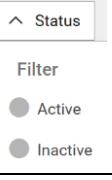

3 Searching for marks and licences

All registered marks and licences are displayed in the "Marks/licences" list view on the main "Register for marks and licences" page, and can be filtered using the filter function. All marks can additionally be displayed in an image view. To do this, switch to the "Mark image search" tab.

3.1 Using filters

The various filters that can be used to display specific marks or licences are available in the top bar in both views.

The following filters are available:

Filters	Preview
Filter with date selection (calendar mode). This filter can be used to narrow down the registration date of a mark or licence.	
Status filter. This filter can be used to differentiate between active and inactive marks or licences.	
Letter filter. This filter can be used to search for letters or combinations of letters.	
Number filter. This filter can be used to search for numbers or combinations of numbers.	

<p>Characteristic filter. This filter can be used to search for different mark characteristics.</p>	<p>Characteristic</p> <p>Filter</p> <ul style="list-style-type: none"> <input type="radio"/> Stern, Planet <input type="radio"/> Baum, Frucht <input type="radio"/> Punkt
<p>Mark or licence type filter. This filter can be used to differentiate between all types of licences and marks.</p>	<p>Mark- and licence type</p> <p>Filter</p> <ul style="list-style-type: none"> <input type="radio"/> Responsibility mark <input type="radio"/> Melter's mark
<p>Frame filter. This filter can be used to search for different frames.</p>	<p>Frame</p> <p>Registr</p> <p>Filter</p> <ul style="list-style-type: none"> <input type="radio"/> Ohne Umrahmung <input type="radio"/> Rechteck <input type="radio"/> Dreieck
<p>Registration number filter. This filter can be used to search for different mark or licence numbers.</p>	<p>Registration number</p>
<p>Mark or licence owner filter. This filter can be used to search for the name of a mark or licence owner.</p>	<p>Owner</p>

Once the desired filters have been set, the result is displayed by clicking on **Filter**.

3.2 Resetting filters

To reset the filters, click on **RESET**.

4 Viewing mark or licence details in the list view

4.1 Displaying the details of a registered mark or licence

To go to the details page with information on the mark or licence, click on the desired line in the list view. This will take you to the details page.

PREZIUS Info - The electronic register of the Precious Metals Control for marks and licenses

The legislation of the Precious Metals Control prescribes licenses and markings to regulate activities such as melting, trading purchasing and marketing of precious metals - whether they are raw, processed, used or objects. You can find more information on this subject on our website via the following link: [Precious Metals Control](#)

Prezios Info is a public register listing all the issued licences and registered marks. It includes assayers and melters marks, the for these activities required licences, the actors declared for the purchase of melting materials and all the registered responsibility marks.
