SwissImpex

Several **visuals** are available. These can also be maximized. Their content corresponds to the **selected parameters**.

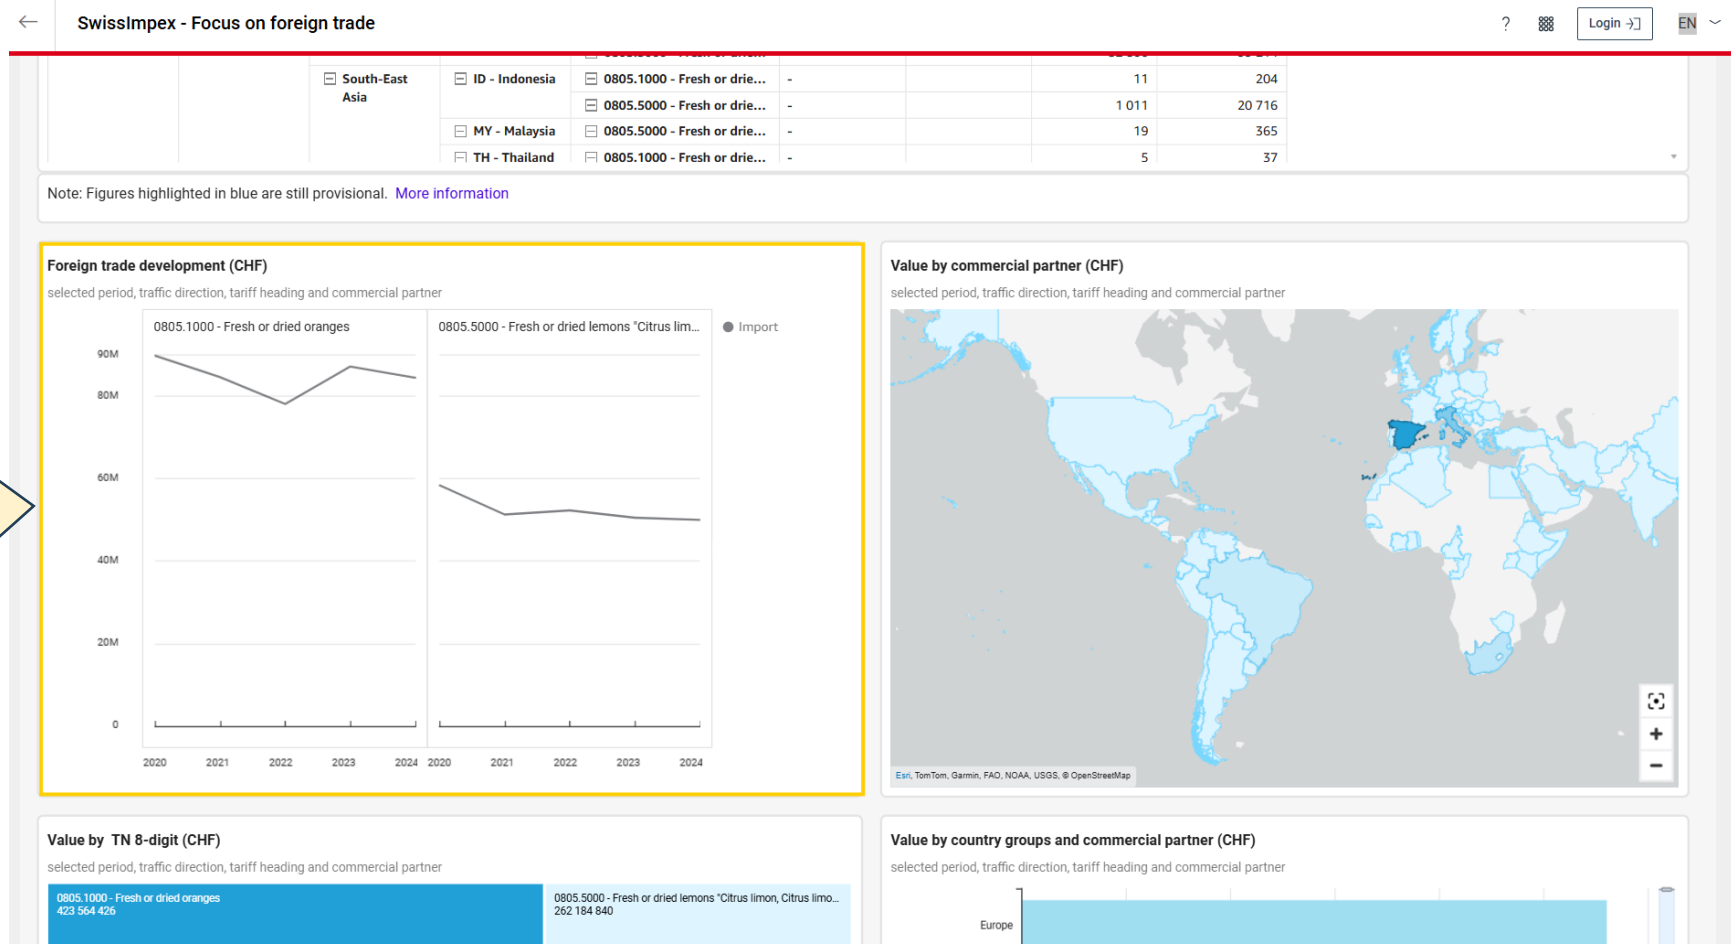

SwissImpex

**Line chart
showing foreign
trade development**

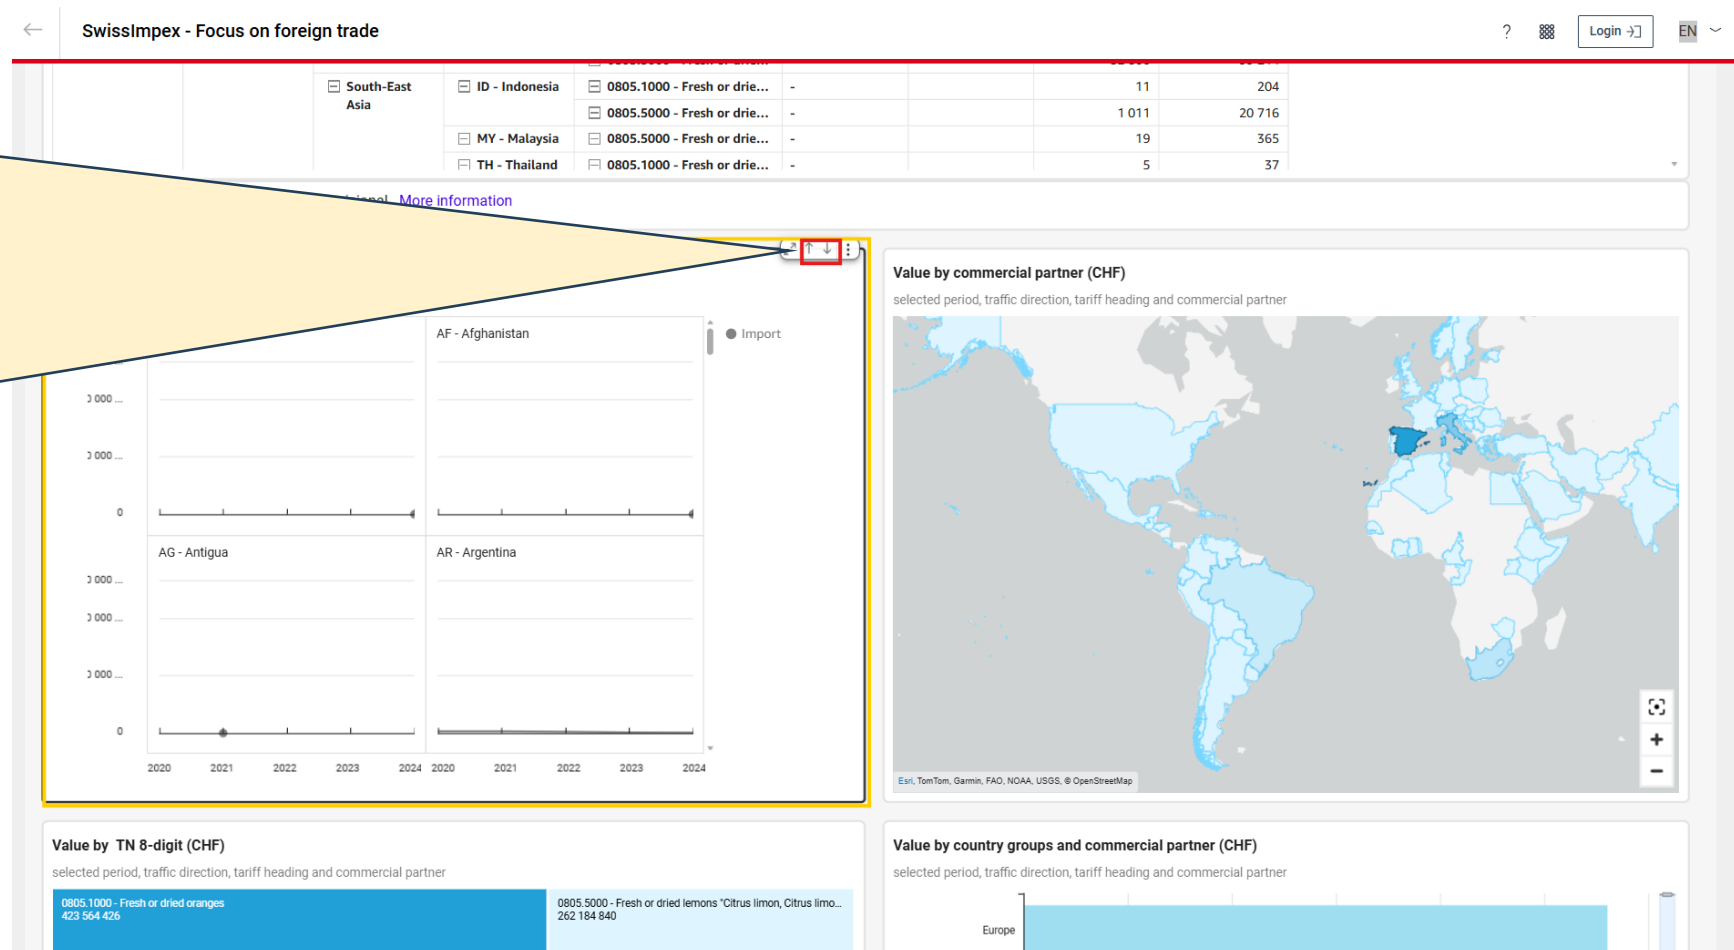

Displays the value
of each commodity
or commercial
partner over a
timeline.

SwissImpex

SwissImpex includes several **special features**. In the line chart visual, the arrows in the context menu allow you to switch between **different levels (commodity or commercial partner)**.

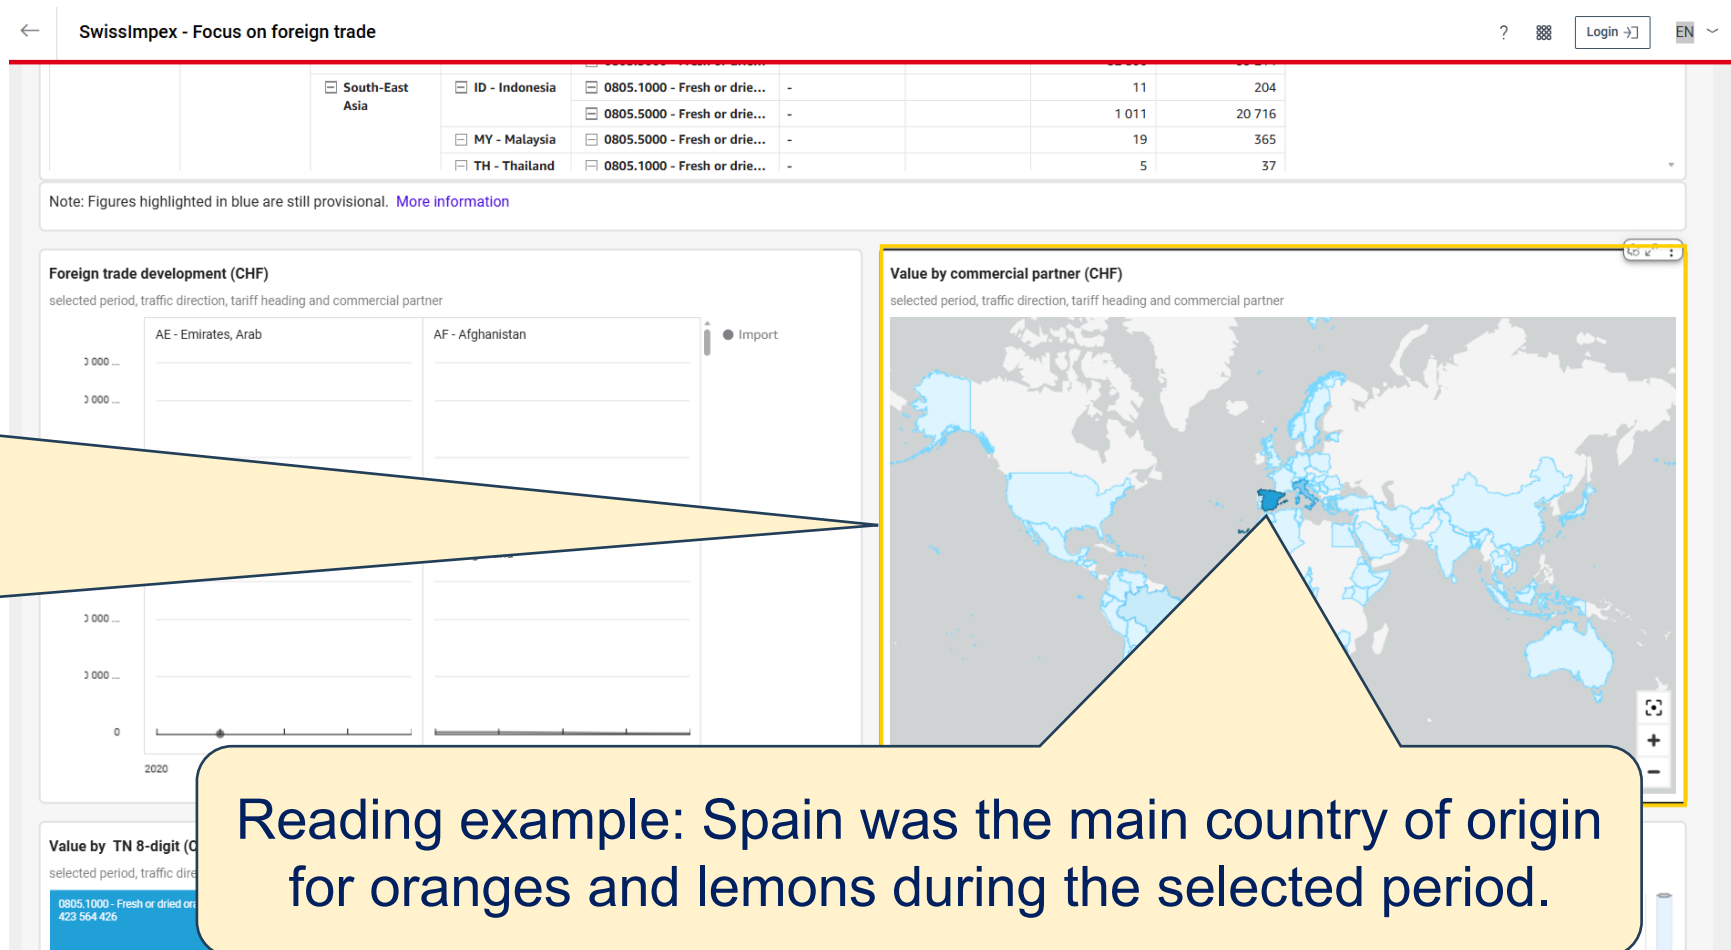

SwissImpex

Geomap showing geographical distribution

Displays the value and trade intensity of each commercial partner on a scalable world map.

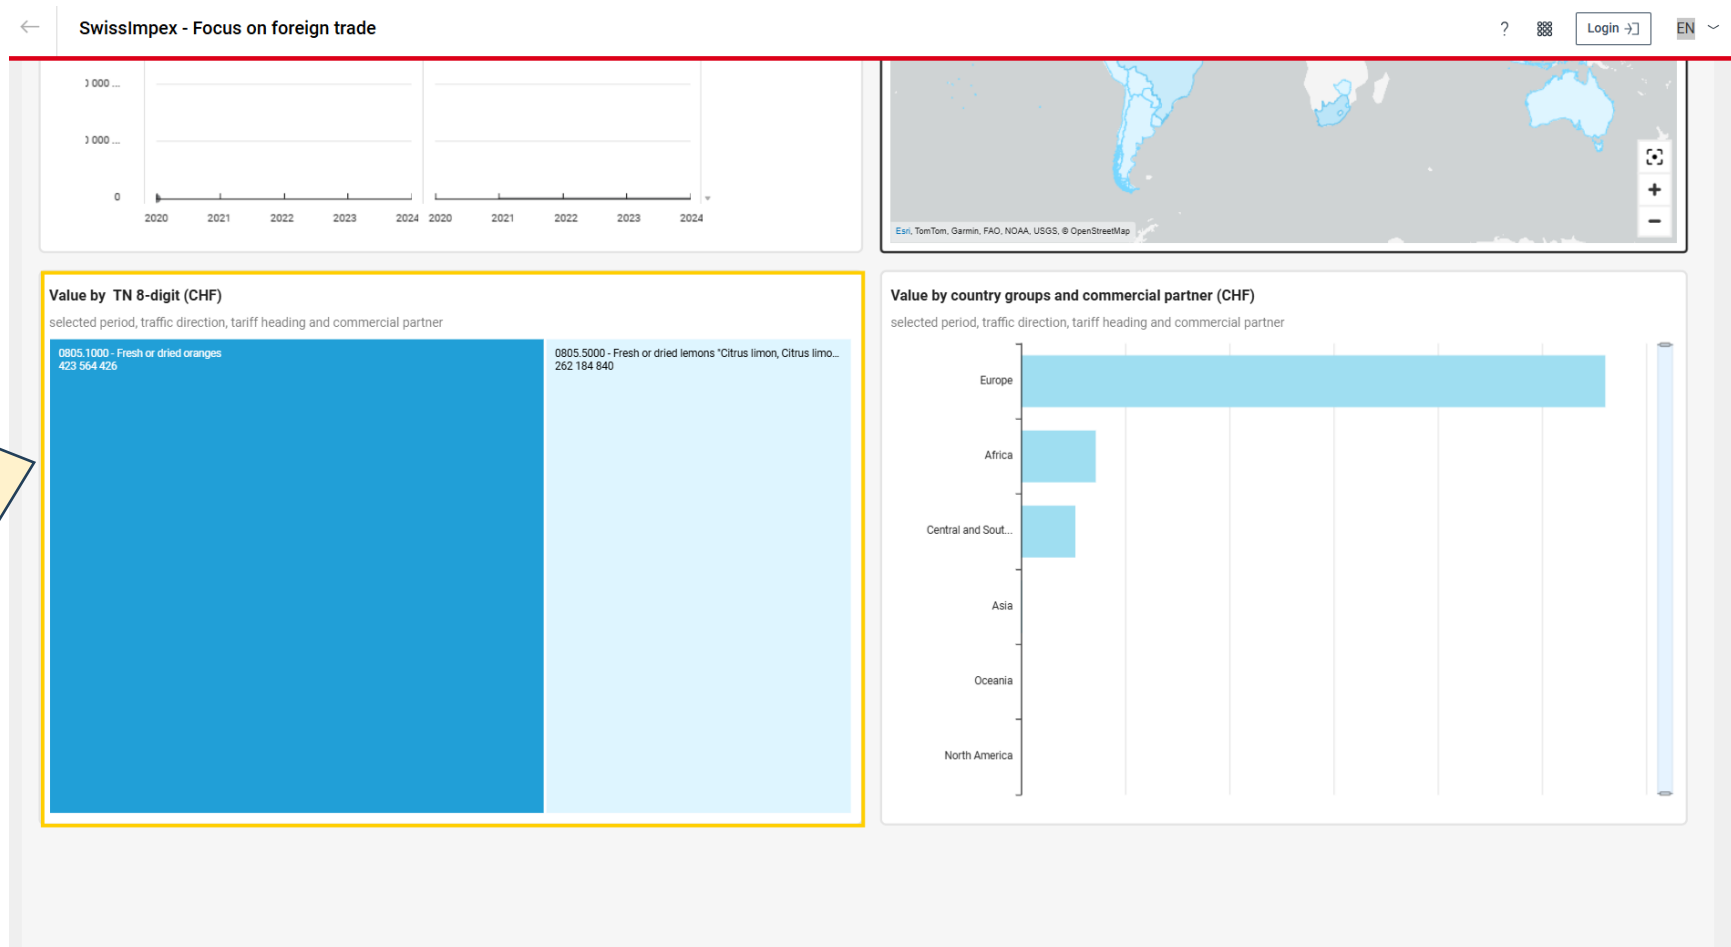

Reading example: Spain was the main country of origin for oranges and lemons during the selected period.

SwissImpex

**Treemap showing
the distribution per
commodity**

Displays the value
and share of each
commodity in tiles.

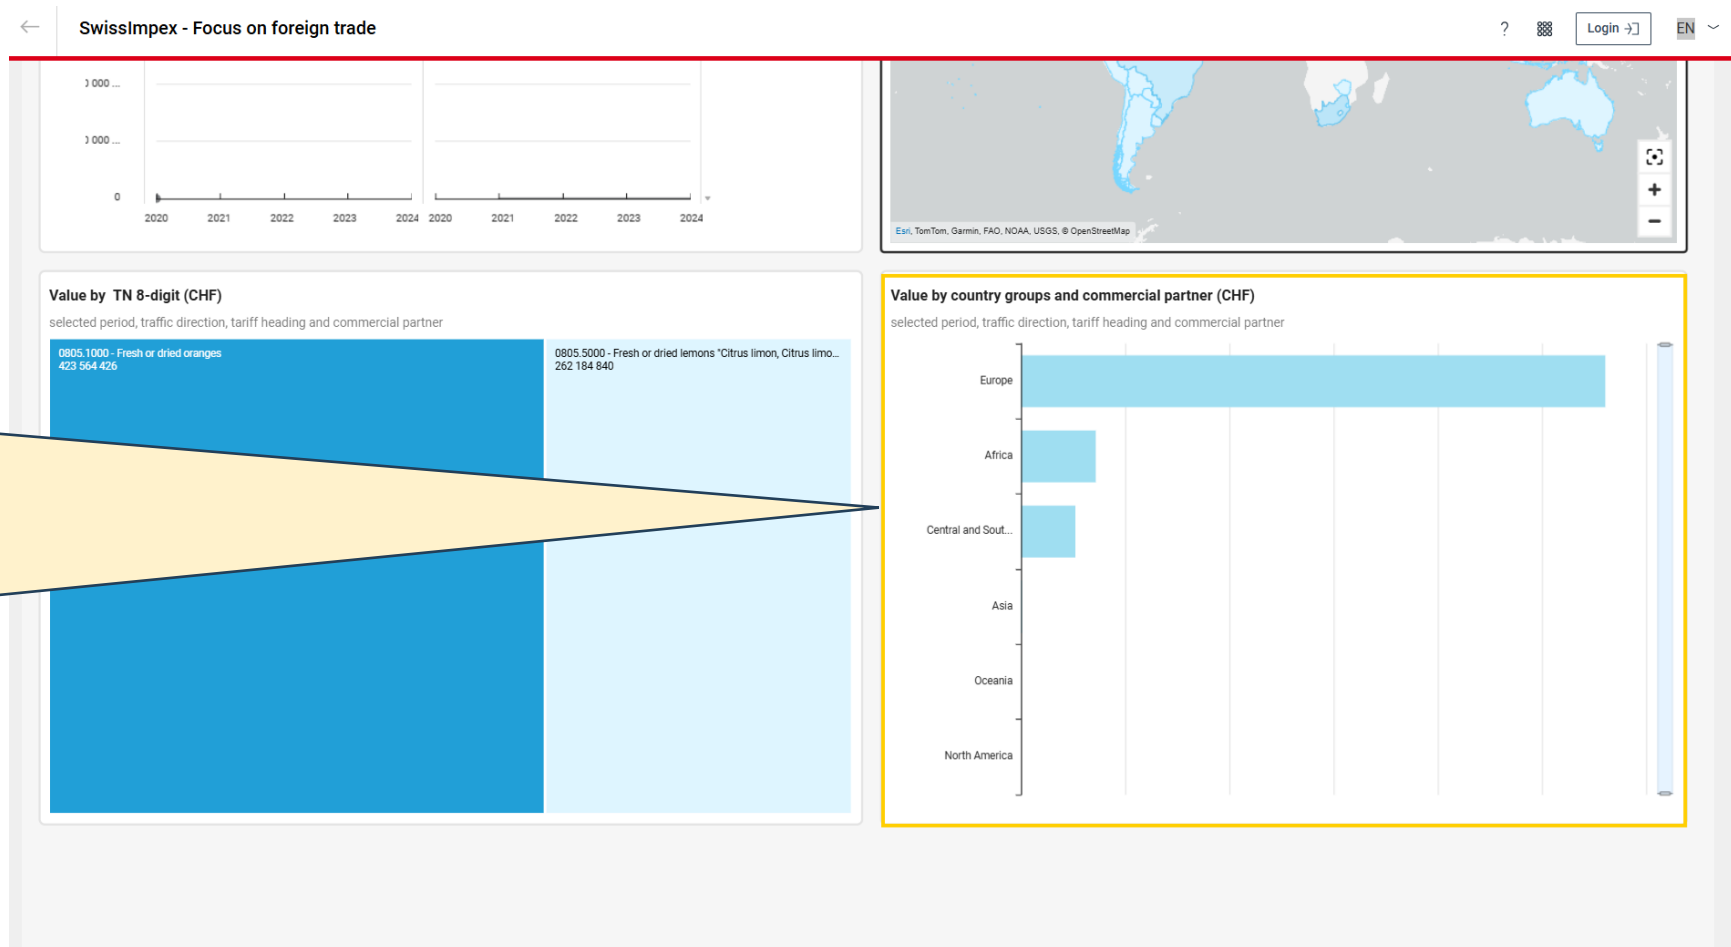

SwissImpex

Bar chart showing the distribution by country group or trading partner

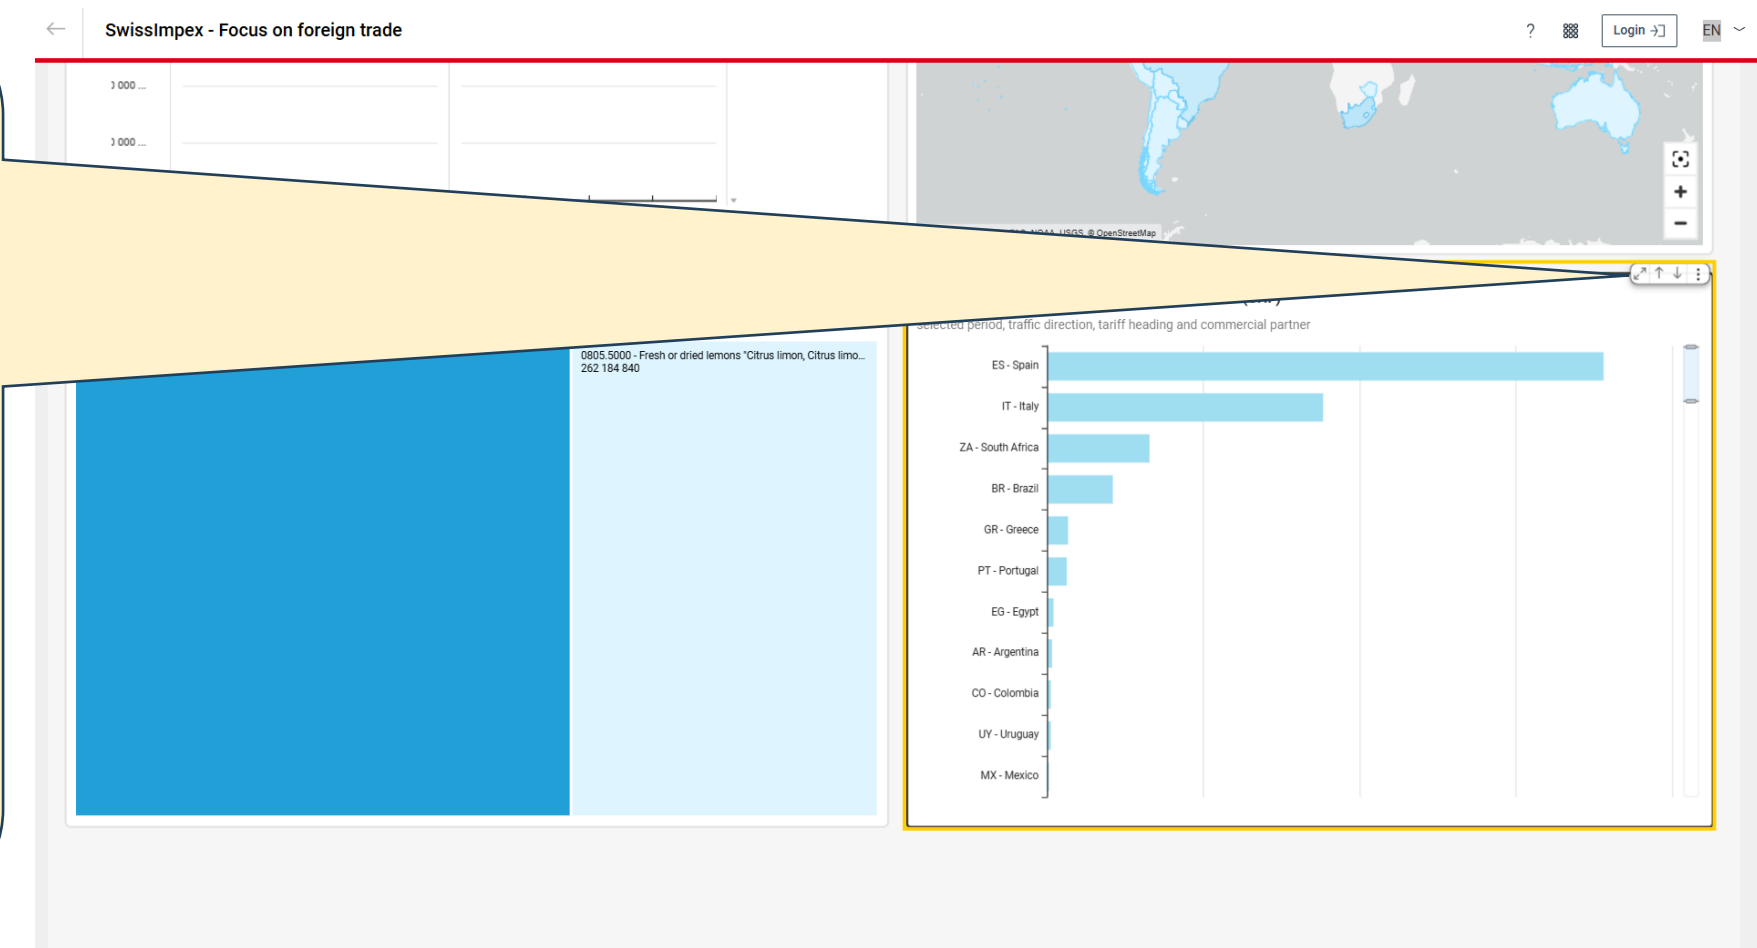

Displays the value and share by country group or commercial partner.

SwissImpex

In the bar chart visual, the arrows in the context menu allow you to **switch between different levels (country group or commercial partner)**.
